#### **DETAILED ACTION**

Applicant's arguments filed 11 December 2003 have been fully considered. Rejections and/or objections not reiterated from previous office actions are hereby withdrawn. The following rejections and/or objections are either reiterated or newly applied. They constitute the complete set presently being applied to the instant application.

Claims 1-7, 9-23, 25-35, 37, 38, and 40-61 are currently pending.

#### Claim Objections

Claims 21 and 22 remain objected to because of the following informalities: In claims 21 and 22, the antecedent basis appears refer to the oligonucleotides selected in claim 18, but to further clarify the insertion of the term "selected" before "oligonucleotide" is suggested.

Appropriate correction is required. Applicant did not respond to this objection in the response dated 11 December 2003.

### Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-7, 9-23, 25-35, 37, 38, and 40-61 remain rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 comprises a series of steps or code to identify oligonucleotide sequences suitable for the amplification of a unique sequence within a genomic region of interest comprising

executing a first step to identify repeat sequences, executing a second step to compare repeat sequence-free subsequences, and executing a third step to identify oligonucleotide sequences that are suitable for use as primers. These claims remain unclear. Particularly with regard to the third step, what is the intended limitation of this step? The amendment to the claim has rendered this step nonsensical. It is clear from the claim that the identification of repeat-free subsequences is intended. However, it is not clear the intended limitations of the remainder of the claim directed to "for which there are 5 or fewer sequences at least 50% identical to a nucleotide sequence in said nucleotide sequence database". Is this intended to limit the primers or the repeat-free subsequence?

Claims 18, 34, 43, 60 and 61 recite a step of "selecting oligonucleotides that are suitable for use as primers in an amplification reaction". It is still unclear what oligonucloetide is being identified or selected? Perhaps applicant intends the claims to read "selecting oligonucleotides based upon the identified regions".

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 1631

however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

No claims are allowed.

## Inquiries

Papers related to this application may be submitted to Technical Center 1600 by facsimile transmission. Papers should be faxed to Technical Center 1600 via the PTO Fax Center located in Crystal Mall 1. The faxing of such papers must conform with the notices published in the Official Gazette, 1096 OG 30 (November 15, 1988), 1156 OG 61 (November 16, 1993), and 1157 OG 94 (December 28, 1993) (See 37 CFR § 1.6(d)). The CM1 Fax Center number is either (703) 308-4242, or (703) 308-4028.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lori A. Clow, Ph.D., whose telephone number is (571) 272-0715. The examiner can normally be reached on Monday-Friday from 10 am to 6:30 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael P. Woodward, Ph.D., can be reached on (571) 272-0722.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the Legal Instrument Examiner, Tina Plunkett, whose telephone number is (703) 305-3524, or to the Technical Center receptionist whose telephone number is (571) 272-0549.
